

Keeping up with our tradition of bringing an exciting range of products for every season, Rasa has just released an exclusive Fall 2020 collection, offering a wide selection of unique handmade scarves, bold handbags, chic jewelry pieces and accessories, handmade sweaters, jackets, along with other clothing, home-decor items and ornaments.

It's that time of year...

As the leaves start turning from green to various shades of orange, our choice of beverage shifts from lemonade to apple cider, and warm coats begin taking center stage in our wardrobes, we know that fall is knocking at our door. This year has not been an easy one, so we feel that it's more important than ever to fight away the gloom and negativity. Rasa's Fall 2020 Collection is full of striking colors, to brighten our shortening days and stir up excitement for the upcoming festivities.

We bring you hand-painted scarves all the way from Bangladesh. These super-soft scarves are available in a bright variety of lush colors and would be superb accent pieces to complement any of your fall outfits.

We're also revealing a new selection of purses, clutches, and handbags from Kenya. The vivid prints and patterns just roar "Go Bold" and are guaranteed to add some panache to your look.

The festive season brings along an opportunity to shower gifts on loved ones, and you can never go wrong with jewelry. The latest Rasa collection highlights jewelry from India, the land of craftsmanship, and offers an amazing range of designs and styles. These chic accessories have highly detailed work exuding sheer elegance spiced with a hint of daring!

All Rasa products are handcrafted by small-scale artisans from different corners of the world and that is exactly what makes every piece unique. The makers pour their hearts into age-old traditions and channel the artistic knowledge passed through generations into their creations. Each piece is a reflection of the ethnicity and uniqueness of their rich cultures.
